Dear Jim, FOIA account 2/8/77

Good news, thanks to good Paul W.

In today's mail there is a check for $200 from Paul.

As soon as she can Lilx will draw a check on our account and send it for deposit in the Washington account so you can use it to pay for xeroxes. She will also deposit Paul's check in our account so it will show in all records and the records will balance.

If I understood what you said a week about the account was bottoming. This will be a big help for several weeks.

By the time I come back from Detrpit I'll know if the check has been mailed. I think it is likely the check will be in tomorrow's mail, but she stays busy this time of the year. I suggest that you check with the bank if you have to draw on it before I ~~ffm~~ let you know.

Today's mail did not include the CIA's releases on WC critics. Would you please ask Bud to make a set for me? I'll pay him. Even if they eventually send it to me it would be good to check to see that they have sent me all.

They have to have some reason for not doing this when my request is six years old.

Best,
